Network Management and Payor Contracting

Our ability to negotiate value-based agreements with Payors as a large network provides a competitive edge and potential for alternative revenue beyond fee-for-service. Our network physicians are rewarded for their clinical achievements in a way that would not be possible on their own.

priya.corea@inova.org

Quality Improvement and Cost Reduction

Our team of Quality Consultants is here to help our network physicians succeed in value-based programs, including our Medicare ACO, by providing timely and actionable quality and cost metric data to improve performance. The Quality team helps physicians in improving workflows in their practices by providing various improvement tools.

neeta.goel@inova.org

Care Management Program

Our multidisciplinary Care Management team provides practices with the clinical resources to support their high-risk and complex patients, including those who have psychosocial or behavioral health concerns. Our nurse navigators, social workers, and pharmacists develop a trusted relationship with the patient to support self-management. Our focus is on each patients' continuity of care, lowering utilization when appropriate and fulfilling the provider's plan of care as a partner in patient care.

Clinical Pharmacy

The pharmacy team works with our network physicians to improve the use of medications for treatment of patients, with education on how to avoid unnecessary costs.

Contact:

Jonathan Puhl, Pharm D, Pharmacy Manager
703.914.2955
jonathan.puhl@inova.org

Health IT and Data Analytics

The IT and Analytics team works to integrate data from physician Electronic Medical Records (EMRs), claims, labs, etc. into our data warehouse to enable us to generate actionable reports for the network to improve patient care and reduce costs. Our team members analyze the data and make recommendations to address gaps in care and decrease total cost of care.

susan.peldo-metzler@inova.org

Medicare Shared Savings Program, Accountable Care Organization

We are a Medicare ACO. We serve our ACO physicians by completing MIPS reporting for their practices. We remain current with the regulatory requirements from CMS with regards to new payment models and support the Signature Partners Quality Committee and Board in selecting the most appropriate models for success.

Contact:

Jennifer Oppong, Program Manager

jennifer.oppo2@inova.org

Physician-Led Committees and Meetings

Our network physicians gain knowledge of best practices as they participate in small group meetings with other physicians and share strategies for reducing costs and improving quality for their patients. These meetings are collaborative and provide opportunity to engage on a peer level, physician to physician.
